PROFILE

Experienced in logistics with over 20 years in maritime transport, container terminals and transport coordination. I am looking for a permanent position as a logistics assistant, transport coordinator, or junior software developer. I have completed a software development degree in Finland, which supports my ability to understand and utilize modern systems, data processing and process management effectively. I combine strong practical logistics expertise with technical understanding, which facilitates cooperation between different departments and supports daily operational activities.

WORK EXPERIENCE

02/06/2025 – 31/08/2025   **Seasonal Sorting Worker,** Posti, Vantaa Logistics Center, Finland
25/11/2024 – 22/12/2024   Sorting worker and closely related tasks
20/11/2023 – 21/12/2023   Handled manual and machine sorting of parcels, also operated manual
29/05/2023 – 31/08/2023   and walk-behind electric forklifts (no license needed).

23/10/2023 – 26/04/2024   **Internship,** EIP Group OÜ, Finland
The work included programming with JavaScript, HTML, CSS using the React JS framework, as well as full-stack development with Node.js, Express, and MongoDB.

03/01/2022 – 28/01/2022   **Warehouse worker** (Finnish language practice), Rosebud Books Oy, Finland.

01/07/2021 – 13/10/2021   **Cleaner**, Frendi Palvelut Oy, Finland, Office cleaning.

02/01/2019 – 30/06/2020   **Dispatcher**, APM Terminals Moin, S. A., Costa Rica
I was the port terminal traffic coordinator, responsible for communications and container handling supervision, using the Navis N4 program for port terminal control and movements.

01/05/2018 – 31/12/2018   **Traffic manager**, Costa Rica Freight and Shipping Co., Costa Rica
I was responsible for the overall coordination of container logistics and transport operations at the port terminal. My tasks included arranging both import container deliveries and empty container transport for export. I was also responsible for the smooth execution of export operations upon arrival of ships, ensuring efficient loading and smooth cooperation with customers and other stakeholders.

01/11/2013 – 31/08/2017   **Logistics Specialist**, Seatrade Costa Rica, S. A., Costa Rica
I was responsible for allocating cargo space to exporters in Costa Rica, Colombia and Honduras. My responsibilities included calculating and validating cargo space on reefer vessels, optimizing space utilization both in the hold and on deck. I prepared and issued all necessary shipping documents, such as bills of lading, while working closely with customers. I ensured that their needs

Jose Oldemar Chaves Urbina

were met and also handled booking rejections due to capacity constraints or contractual terms.
